

Dear colleague,

We are going to celebrate our 20th anniversary within the scope of a climate change conference and we would like to see you at this occasion.

Since effects of climate change are expected to have significant impacts on the Wadden Sea ecosystem, as well as on the Wadden Sea coastal area, the Common Wadden Sea Secretariat (CWSS) has chosen this issue as the theme for its 20year anniversary conference. Amongst other things, the conference will approach possible consequences for coastal protection and nature conservation and inventory potential adaptation measures.

The event will be organized in cooperation with the National Park Administration Lower Saxon Wadden Sea.

The registration form, conference agenda and further information can be found under:

<http://www.waddensea-secretariat.org/news/symposia/climatechange/climatechange2007.html>

Please bear in mind that the number of participants is limited to 80 persons and return your registration as soon as possible but **at the latest by 15 August 2007**.

We look forward to your registration and to seeing you here.

With kind regards

Sabine Borke

Common Wadden Sea Secretariat **CWSS**
