

2nd CoastLab Course

April 9-11, 2008 | FEUP | Porto - Portugal

Applications accepted until March 2, 2008

<http://www.fe.up.pt/ihrh/coastlab>

After the success of the first course, the CoastLab network - the network for small and medium coastal engineering laboratories - with the support of ENCORA Young Professional Exchange Program (YPEP) will organize the "2nd CoastLab Course", which will be held at the Faculty of Engineering of the University of Porto - Portugal, from April 9-11, 2008.

This course is designed as a hands-on application-oriented training. It will provide the students with the knowledge necessary to set up a sediment transport simulation in physical model. As far as possible, students will also learn to use laboratory instrumentation.

Applications will be accepted until March 2, 2008, application procedure and other relevant information available at <http://www.fe.up.pt/ihrh/coastlab>.

The organisers of the CLab Course would also ask you to pass this message on to any colleagues/students who may have been missed by this mailing.

Look forward to welcoming you in Porto!

Yours sincerely,

Luciana das Neves

On behalf of CoastLab network
